Career Objective

To apply ethics with analytical and technical skills and harness my committed character as a team player to contribute to the growth of the organization while continuously enhancing my skills and experience.

Education

Indira Gandhi National Open University Delhi

Master of Computer Application (MCA)

Maharshi Dayanand Saraswati University Ajmer

Bachelor of Computer Application (BCA)

Rajasthan Board of Secondary Education

Senior Secondary (XII)

Rajasthan Board of Secondary Education

Secondary (X)

Pursing

July 2024 – 2026

Percentage – 83.00 % (1st Rank)

August 2021 – March 2024

Percentage - 80.00 %

2020 – 2021

Percentage - 60.00 %

2018 – 2019

Technical Skills

Languages : Python, C

Major Course work : Operating System, Computer Network, Database Management Systems(DBMS), Linux, Github

Technologies : AWS (EC2, S3, RDS, Lambda, VPC, IAM, DynamoDB, API Gateway, Amazon Rekognition, Amazon textract etc.)

Core Competencies : Communication, Decision Making, Teamwork

Internship/Training

Regex Software Services

May 2024 – Present

Cloud Computing (AWS) and DevOps Trainee

Jaipur , Rajasthan

- **Core AWS Services :** Understand essential services like EC2, S3, and RDS.
- **Security Practice :** Learn About IAM, Encryption, and AWS's shared responsibility model.
- **Hands-on Experience :** Practice using AWS Management Console, CLI, and SDKs.

Projects

CI/CD Pipeline | Git, GitHub, GitHub Actions, AWS

Nov - Dec 2024

- Set up a basic CI/CD pipeline using AWS services including Amazon S3 and AWS CodeBuild.
- Set up a basic CI/CD pipeline using AWS services including Amazon S3 and AWS CodeBuild.
- Utilized Git, GitHub, GitHub Actions, and AWS for seamless integration and continuous delivery.

AWS Image Rekognition | AWS Rekognition, AWS Lambda, AWS S3, AWS DynamoDB

Oct 2024

- Utilized AWS Rekognition for object detection, scene analysis, and facial recognition, enhancing accuracy and reliability of image-based insights.
- Leveraged AWS's scalability to efficiently process large volumes of images, ensuring low latency and high throughput.
- Facilitated rapid, real-time image analysis for diverse applications by handling extensive datasets seamlessly.

Achievements

- Solved 100+ problems on different coding platforms.
- AWS Cloud Quest: Cloud Practitioner (Issued 30/5/2024)
- AWS Knowledge Badge:
 1. File Storage (Issued 10/11/24)
 2. Compute (Issued 10/20/23)
 3. Architecting (Issued 12/11/24),
 4. Serverless (Issued 13/11/2023)
 5. Cloud Essentials (Issued 2/12/2024)
